Re: Leap's 6th E911 Quarterly Report

#### Gentlemen:

Pursuant to the Commission's July, 2002 <u>Order to Stay</u>,<sup>1</sup> Leap Wireless International, Inc. (and its Cricket Communications subsidiary) respectfully submits its sixth Enhanced 911 ("<u>E911</u>") quarterly implementation report for the period ending February 1, 2004. As stated in the previous filing, Leap filed a voluntary petition for relief under Chapter 11. Despite our financial restructuring process, we continue to aggressively proceed with the E911 compliance and mandates.

No. of Call Balls 3

<sup>&</sup>lt;sup>1</sup> <u>See</u> Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911, <u>Order to Stay</u>, CC Dkt No. 94-102 ¶¶ 28-30 (rel. July 26, 2002) (the "July Order").

## 1. Status of Pending Requests

As of January 31, 2004, Leap provides Phase I service to 174 PSAPs in 13 states and Phase II service to 57 PSAPs in four states.

In accordance with the FCC public Notice released on June 6, 2003, CC Docket No. 94-102, the attached Appendix A lists the status for all Phase I and II requests including PSAPs deployed, pending, and invalid requests due to the serving area falling outside of Leap's coverage area.

Leap has seven Phase I and 25 Phase II requests that are currently in the process of deployment. These requests will be deployed within the required 6-month timeframe or a timeframe that is mutually agreed upon with the PSAP, as noted in the "Projected Deployment Date" column on Appendix A.

### 2. Status of Handset Deployment

As previously reported, Leap first begun selling ALI-capable handsets (the Kyocera 2325) on June 30, 2002. In February 2003, Leap added a second model (the Motorola v120e) and was able to exceed the May 31, 2003 benchmark requiring that at least 25 percent of new activations have ALI-capable handsets. Leap reported in the last report that the Motorola T720c and the Kyocera KE413 were also added to our handset distribution mix. Since that report Leap has also added the Motorola c343 ALI-capable handset. We are pleased to report that we continue to exceed the FCC benchmarks, significantly surpassing the November 30<sup>th</sup>, 2003 requirement of 50 percent ALI handset penetration for new subscribers. As of this report we have obtained an 86 percent penetration level for new activations, with over 467,000 ALI-handsets sold.

As required in the July Order, Leap is providing this implementation report to the Association of Public Safety Communications Officials (APCO), the National Emergency Numbering Association (NENA) and the National Association of State Nine One One Administrators (NASNA). If any recipient of this report should have questions or comments concerning the information contained in the report, they should contact Laurie Itkin, Director-Government Affairs, at 858-882-6226.

Please note that I am an officer of Leap. Please note also that this notarized Report will, in accordance with the July Order, serve as an affidavit authenticating the facts set forth herein.

I swear under penalty of perjury that the facts set forth herein are true and correct to the best of my knowledge information and belief.

Glenn Umetsu

**Chief Operating Officer** 

Cc: Laurie Itkin

James Barker, Esq.
